THEY DELIVERED! UNLIMITED FINANCIALS USER-FRIENDLY SOLUTION HELPS OUR STAFF QUICKLY AND EASILY NAVIGATE THE SYSTEM, DELIVERING IMPROVED FINANCIALS."

MEL DAVIES, CFO
Oregon Specialty Group

- **Increase front desk operations** by automating patient intake workflows, appointment arrival, registration data review, and copay collection. The combination of these factors allows you to deliver a hassle-free patient experience.

- **Maximize reimbursement** by applying carrier-specific rules and a comprehensive library of specialty-specific claim edits to validate claims faster with more complete results.

- **Automate payment posting** for even the most complicated and non-standard ERA files to free up time for staff to spend on other essential tasks.

- **Eliminate the expense of manual processes** with a configurable, rules-based engine that automates eligibility verification.

- **Improve cash flow** through automated alerts highlighting underpayments and denials and directly applying payments to patient accounts.

- **Improve staff productivity** through auto-identification and assignment of high-priority tasks.

NAVIGATING CHALLENGES IN INFUSION BILLING

Infusion billing is complex, and providers face numerous challenges, from claim coding to reimbursement. Infusion centers must maintain their account receivables accurately and keep them up-to-date to ensure timely reimbursements and smooth operations. Unlimited Financials provides solutions to streamline operations, increase cash flow, and obtain better financial outcomes. With Unlimited Financials, infusion centers can experience an effortless transition toward efficient revenue cycle management!

BY PARTNERING WITH UNLIMITED FINANCIALS, INFUSION CENTERS CAN BENEFIT FROM:

Enhancing Staff Efficiency – An essential metric for specialty practices to consider while assessing a revenue cycle management platform is the reduction of manual tasks and preventing errors associated with manual processes. Unlimited Financials has been designed to provide automation, reducing the burden on staff and elevating precision. Consequently, practices embracing the complete spectrum of optimal workflows with Unlimited Financials can **boost their billed encountered volume by 20%-30% without expanding their workforce.**

Increased Point-of-Service Collections – Gathering payments at the point of service has been demonstrated to enhance a practice's chances of collecting the entire balance owed by patients. The front office processes in Unlimited Financials have enabled clients to **achieve a remarkable 90% success rate in collecting the full balance during patient interactions,** thanks to the delivery of precise information.

Swift Claim Processing – Following patient care, Unlimited Financials leverages robust API interoperability to accurately consume charge data directly from the source. Practices utilizing Unlimited Financials have **experienced a remarkable 50% reduction in charge lag time** compared to their previous practice management system, thanks to the sophisticated workflows integrated into the software.

Charge Capture Efficiency – The manual handling of intricate specialty claims may lead to revenue loss and avoidable delays. By utilizing Unlimited Financials, clients **witness a notable 3% improvement in charge capture accuracy** and a streamlined two-day reduction in the time to file claims.

Claim Accuracy – Users of Unlimited Financials have **observed a significant decrease in their denial rate, plummeting from 8% to under 3%.** Submitting error-free, clean claims swiftly approved on the initial pass minimizes the need for rework and diminishes the cycle time for claims payment—a crucial factor for maintaining your financial well-being.

Advanced Reporting – Gaining detailed and accurate reports is a valuable tool to help understand your financial performance. In Unlimited Financials, infusion centers can **access real-time patient data, financial reports, and KPI dashboards.** Using Power BI, users can create custom reports or use the many available to them automatically.

Ensuring your practice gets paid quickly and accurately is critical to remaining financially viable in today's healthcare environment. Infusion centers need reliable, easy-to-use tools to streamline their revenue cycle and create a best-in-class patient experience. A single unpaid claim can have significant consequences, and it takes a high level of expertise to successfully manage the financial processes at a practice to minimize that risk. Unlimited Financials assists in accelerating practice cash flow, maximizing revenue, and eliminating time-consuming manual processes from the workflow. As a result, practices using Unlimited Financials achieve a more robust bottom line with less effort, allowing you to spend more time caring for patients.
